## ABOUT ME

Developer specialized in backend development, passionate about programming. I am excited about the opportunities that this field offers, and I am willing to take on new challenges and acquire additional skills.

My goal is to contribute to the success and growth of an organization.

## MAIN PROJECTS

### Backend freelancer with NODE.JS, ExpressJs, FireBase, Jira.

Mexico City | August 2023

- Collaboration with a software development company focused on creating REST APIs for data creation and retrieval.
- The API connects with a mobile app and was built on Firebase.
- A Realtime Database and Realtime Storage were utilized.

### Blog app full stack with NODE.JS, ExpressJs, PostgreSQL.

Mexico City | April 2023

- Developed a full-stack project implementing a blog with complete CRUD functionality, allowing users to create and share blogs.
- Additionally, encrypted token validations were incorporated to authenticate login and signup functionality, ensuring that only the blog's creator can edit or delete it.
- Link back-end: [Github](#)

## EDUCATION

**Academlo** | January 2023 -July 2023

Full Stack Web Development and Computer Science [Certify](#)

**PLANTEL PRADOS Bachillerato** - February 2012 -August 2013

Idea Instituto de Educación Avanzada High school

## WORK EXPERIENCE

**Telvista Call Center** | February - October 2022

- Customer Service, ABG Avis/Budget
- Successfully assisted approximately 700 calls per month, earning multiple recognitions as the standout team member with the highest productivity.
- Demonstrated problem-solving skills with customers by providing swift solutions and effectively managing stress in a high-pressure environment.
